

HiC workshop

**genomics
aotearoa**

25-26 February				
	Day 1		Day 2	
	10:00	Welcome and introductions	10:00	Ivan Liachko - Phase Genomics
	10:45	David Chagné - introduction about Genomics Aotearoa and the High Quality Genome and Population Genomics project		
	11:00	David Winter - introduction to Hi-C	10:30	Cory Padilla & Chui Li - Dovetail genomics
	11:30	Elena Hilario - What happened in the wet lab session	11:00	Chris Couldrey - Hi-C versus LD (hands-on)
Afternoon session	12:00 - 12:45	Lunch	12:30	Lunch
	12:45	Jana Sperschneider - Hi-C scaffolding and chimeric correction	1:15	Justin O'Sullivan - Connecting genetic variation and phenotypes through spatial interactions
	1:15-3:00	Shane Choi & Chen Wu - Hi-C data QC, scaffolding and visulisation (hands-on)	1:45-3:15	Ali Saei - A novel tool for genome scaffolding (hands-on)
	6:30	Dinner at Good George brewery		

Vennue: Auckland Uni Old Government House building - Federation room
